PAUL BRYAN B. VERGARA

Alagao, San Ildefonso, Bulacan | vergarapaul422@gmail.com | 09284222826 | linkedin.com/in/paul-bryan-vergara-21387a437

PROFESSIONAL PROFILE

Information Technology student with hands-on experience in full-stack web development, game development, and AI-integrated systems. Built reservation, dispatch, finance, meal-planning, and virtual interview applications. Passionate about building software with a clear interface that solves a real task. Seeking an IT internship.

EDUCATION

National University Baliwag — Baliwag, Bulacan
Bachelor of Science in Information Technology — Expected Graduation: 2027

Liceo De Buenavista — San Ildefonso, Bulacan
Senior High School — Science, Technology, Engineering, and Mathematics (STEM) — 2017 – 2022

PROJECTS

InterviewSenseAI: Virtual Interview Platform — 2025 – 2026
Full-Stack Developer

- Built an AI interview practice platform with verbal feedback, facial-expression cues, and an HR view for applicant review.
- Integrated Firebase, Groq, Google Gemini, and face-api.js for interview analysis and applicant management.

NutriGoal: Smart Meal Planner — 2025 – 2026
Full-Stack Developer

- Developed a meal planner that builds Filipino-friendly plans from a user's goal, budget, and dietary restrictions.
- Implemented save and PDF download flows with React, Vite, Supabase, and Groq.

BatoMatic: E-commerce and Dispatch — 2024 – 2025
Full-Stack Developer

- Created an ordering and delivery system for sand, gravel, and crushed stone with maps and Google sign-in.
- Connected GCash payments through PayMongo using Supabase, PostgreSQL, and Leaflet.

Michaela Private Resort: Reservation System — 2024 – 2025
Full-Stack Developer

- Built guest accounts and bookings for day tours, overnight stays, 18-hour swimming, and events using Django, Tailwind CSS, and SQLite.

PesoWise: Personal Finance Tracker — 2026
Full-Stack Developer

- Designed a peso-based tracker for income, expenses, budgets, and savings goals with React, TypeScript, Node.js, and PostgreSQL.

JuanVenture: 2D Adventure Game — 2024 – 2025
Game Developer

- Developed a Philippine-history game across Luzon, Visayas, and Mindanao in which the player recovers three artifacts and avoids mythical guardians.

CERTIFICATIONS & AWARDS

- Information Technology Specialist (ITS): Cybersecurity — Certiport
- PSITE Region 3 Proceedings, page 216 — JuanVenture: The Lost Artifact of the Archipelago, with Jeomir Galvez, Jian De Guzman, and Ken Lordian Derla
