

Paul Bryan B. Vergara

SOFTWARE DEVELOPER

vergarapaul422@gmail.com · github.com/PBvergara · LinkedIn · Open to an IT internship

SUMMARY

4th-year BS Information Technology student at National University Baliwag. I build full-stack web systems and 2D games, from reservation and dispatch tools to an AI interview platform. I care about a clear interface and software that solves a real task, and I am working toward becoming a game developer.

PROJECTS

InterviewSenseAI — Virtual interview platform · Live

AI interview practice with verbal feedback, facial-expression cues, and an HR view for applicant review. Firebase, Groq, Google Gemini, and face-api.js.

NutriGoal — Smart meal planner · Live

Builds Filipino-friendly meal plans from a person's goal, budget, and restrictions, then saves or downloads the plan. React, Vite, Supabase, and Groq.

BatoMatic — E-commerce and dispatch · Live

Orders and deliveries for sand, gravel, and crushed stone, with maps, Google sign-in, and GCash through PayMongo. Supabase, PostgreSQL, and Leaflet.

Michaela Private Resort — Reservation system

Guest accounts and bookings for day tours, overnight stays, 18-hour swimming, and events. Django, Tailwind CSS, and SQLite.

PesoWise — Personal finance tracker · Live

Records income, expenses, budgets, and savings goals in Philippine pesos. Savings are entered manually and are not connected to a bank. React, TypeScript, Node.js, and PostgreSQL.

JuanVenture — 2D adventure game · Godot 4.5

A Philippine-history game across Luzon, Visayas, and Mindanao. The player recovers three artifacts and avoids guardians such as the Minokawa, Manananggal, and Tiktik.

SKILLS

Frontend	HTML, CSS, JavaScript, React, Tailwind CSS, Vite
Backend	Python, Django, Firebase, Supabase, Google Apps Script
Data	PostgreSQL, Cloud Firestore, SQLite
AI	Groq, Google Gemini, face-api.js
Game	Godot, GDScript
Also used	Leaflet, PayMongo, Capacitor, Android WebView

EDUCATION

BS Information Technology — 4th year

National University Baliwag

CERTIFICATION AND RECOGNITION

Information Technology Specialist in Cybersecurity — Issued June 2026 · Valid through June 2031

Certiport. Passed June 4, 2026, administered at National University Baliwag. Verified on Credly.

PSITE Region 3 proceedings, page 216 — JuanVenture

JuanVenture: The Lost Artifact of the Archipelago, with Jeomir Galvez, Jian De Guzman, and Ken Lordian Derla.
